

Exclusive Pediatric Software offer for members of Healthfirst, Inc.

First-rate medical software must do more than simply cover the basic operations you'd expect from ordinary medical software. PCC's Pediatric Partner and PCC EHR rise above other options by offering pediatric-focused features and guaranteed support that goes beyond your basic expectations.

Pediatric Software Features

-  Family billing and advanced collection tools
-  Pediatric charting based on Bright Futures™ guidelines
-  Practice management benchmark reports
-  Problem lists and patient histories
-  Immunization tracking
-  School forms
-  Accounts receivable benchmark reports
-  Speedy charting with Answer Memory and Auto-notes
-  Automatic physical tracking and patient handouts
-  Sophisticated patient recall
-  Customizable encounter forms
-  Provider-specific patient scheduling
-  Electronic eligibility verification
-  Pediatric-specific managed care reports
-  Electronic personal billing
-  Patient handouts
-  RBRVU reports
-  Free electronic claims to participating payors
-  Electronic prescribing
